Convention of Permian Komis Approved Delegates for the Sixth World Congress of Finno-Ugric Peoples in Hungary

On March 24, 2012, the Convention of Permian Komis took place at the Cultural and Business Centre of the Town of Kudymkar.

Although a similar assembly was held for the first time as early as in 1923, whereas the next one was carried out 69 year later only, the present convention may be considered absolutely rightly the first event of such scale in latest time, due to the limitation period. It was attended by 265 participants from Kudymkar, the Permian Komi District as well as representatives of Permian Komi communities from Perm, Syktyvkar, and Moscow.

'The major question, which was brought in front of the convention, became the approval of the list of delegates from the Permian Komi nation for the Sixth World Congress of Finno-Ugric Peoples, which will take place from September 6-9, 2012 in the Hungarian town of Siófok', tells Svetlana KOLCHURINA, President of the PRPO "Roza Vetrov", First Vice-President of the MAFUN Association. 'The original idea to elect the delegates belonged to public organizations of the Permian Komi District – PRPO "Society of Protectors of the Permian Komi Language and Culture "Юрöп", PM "Permian Komi Nation", Perm Regional Branch of the All-Russian PM "Association of Finno-Ugric Nations of Russia", and as our organization. Taking into account the number of inhabitants, delegate quotes for neighbourhoods and communities were determined. Afterwards regional power bodies joined the process – and the decision was

met to call the First Convention of Permian Komis to approve the candidates'.

As a result, 20 delegates for the Congress were approved according to the suggested list – 4 persons from Kudymkar and the Kudymkar neighbourhood, 2 persons from the Gainy, Kosa, Kochevo, and Yusva neighbourhoods, 1 person from the Yurla neighbourhood as well as communities of Perm, Syktyvkar, and Moscow. According to the initiative of public unions, there was a suggestion to include one representative of the Yazva Komis into the list as well, who never had voting right, as long as they are not officially registered as a Finno-Ugric ethnos, but the Convention refused to do that.

Unfortunately, the Convention had been prepared in a fast mode – in one week only. That is why it couldn't have been carried out without obstacles: The voting procedure hadn't been regulated in a precise mode, the strength of the counting commission wasn't clear to the full extent, the name of the protocolist wasn't announced... However, organizers expressed their hope that all the arguments would have been resolved at the preparation stage by the Second Convention of the Permian Komi Nation, which were going to take place in 2014.

In Kudymkar, an Exhibition of the Finnish lithography «Dialogues with the Stone» Opened

On March 28, 2012, an exhibition of the modern Finnish graphics opened at the Permian Komi Subbotin-Permyak Local History Museum (Kudymkar).

More than 120 people took part in the festive ceremony – museum associates, creative intelligentsia of the town, representatives of power bodies as well as residents of Kudymkar and District neighbourhoods. His greeting for the guests was read by Igor BYKARIZ, Head of the Permian Komi District, Minister of the Perm Region.

'For Kudymkar, this is an unique exhibition,' revealed her happiness Elena DUNINA, Director of the Permian Komi Subbotin-Permyak Local History Museum. 'We haven't had works of Finnish masters as items so far. Besides, residents of Kudymkar were the first ones who could see the collection beyond the Contest frame!'

'This exhibition of original stone lithographs was presented at the 10th International Graphic Biennale of the Countries of the Baltic Sea in September of last year in Kaliningrad', confirmed Svetlana KOLCHURINA, President of the Perm Regional Public Organization "Roza Vetrov" (Windrose), one of the exhibition's organizers. 'At that time, Juho Karjalainen became a honoree of the biennale, whereas Kuutti Lavonen was awarded with a diploma "For Expressiveness and Professionalism".'

After the official part of the ceremony was over, an exhibition

tour was led by its curator Elena SHIPITSYNA, Chief Researcher, Curator of Exhibition Activities and International Contacts at the Chelyabinsk State Museum of Fine Arts.

The exhibition of Finnish graphics in Kudymkar was a logic continuation of "Culture Reloaded" that had been carried out in the Permian Komi District last year within the long-term Program of the Ministry "Perm Region – Territory of Culture". In the beginning of December, a meeting of Elena Dunina and Elena Shipitsyna took place - and here is their first mutual project in spring already!

The exhibition in Kudymkar will operate until May 1st. Co-organizers of the exhibition are the Embassy of Finland in Russia, Perm Regional Public Organization "Roza Vetrov" (Windrose), Autonomous Nonprofit Organization "Civic Engagement Institute", Saimaa University of Applied Sciences (Lappeenranta, Finland), Chelyabinsk State Museum of Fine Arts, Permian Komi Subbotin-Permyak Local History Museum. The exhibition is supported by the Ministry of Culture, Youth Policy, and Mass Communications of the Perm Region.

The Collection of Funds for the Finno-Ugric Socioeconomic Forum Has Started

In December 2012 another International Finno-Ugric Socioeconomic Forum will be held in Kudymkar.

Its topic will be a theme, which is actual not only for Finno-Ugric territories and countries but also for the entire globe in general – “Shrinking Processes in the Global World” – and extended by new facts on this topic, which have been revealed in the course of this year.

In the Forum’s work, experts from Kudymkar, Perm, Petrozavodsk, further settlements of the Russian Federation as well as Finland, Estonia, Hungary, Germany will take part. A preliminary consent for the patronate of the event has been received by the Embassy of the Republic of Hungary in the Russian Federation; his willingness to visit the Forum was also announced by the István Íjgyártó, Ambassador Extraordinary and Plenipotentiary of Hungary in Russia. Negotiations with diplomatic representations of Estonia and Finland regarding the possible patronate are on-going.

This year Forum’s organizers – Autonomous Nonprofit Organization “Civic Engagement Institute” and Perm Regional Public Organization “Roza Vetrov” (Windrose), suggested an initiative to carry out the Forum by means of public funds only, while they were taking into account a high significance and wide familiarity of the event in Russian and global Finno-Ugric communities.

To achieve these targets, purses in the Webmoney international payment system were created respectively - (WM)R389419290864 (for ruble transfers), (WM)Z192268009583 (US dollars), (WM) E173093973056 (euro). Transfers to electronic purses are initiated on a legal basis with payment of income tax (13 %) by the organizers, while withdrawing money to the Forum’s account.

We would be grateful for any help, rendered for the event’s organizers, and expect you at the Third International Finno-Ugric Socioeconomic Forum in December 2012.
